

IN MICHIGAN, THE TEACHERS AND FIRST RESPONDERS BACK TO WORK ACT WILL PROVIDE \$945.5 MILLION IN FUNDS TO SUPPORT UP TO 11,900 EDUCATOR JOBS

The Teachers and First Responders Back to Work Act will save or create nearly 400,000 education jobs through critical investments in the education of our nation's children. Specifically, The Teachers and First Responders Back to Work Act will invest \$30 billion to support state and local efforts to retain, rehire, and hire early childhood, elementary, and secondary educators. Facing a \$767 million budget shortfall in 2012, cuts to state and local spending on education will place thousands of Michigan teacher jobs at risk. The Teachers and First Responders Back to Work Act will provide Michigan with an additional \$945.5 million in funds that will support 11,900 education jobs, provide a jolt to the state economy, and improve the quality of education. By asking millionaires to pay their fair share, The Teachers and First Responders Back to Work Act will grow the Michigan economy without adding a dime to the deficit.

Michigan Budget Shortfall Forced State To Slash Education Spending by 0.6 Percent. As a result of the most severe fiscal crisis since the Great Depression, Michigan faced a budget shortfall of \$767 million in 2012, a staggering 3.6% of the state's General Fund. Given the dramatic reduction in state revenue, the state was forced to slash funding for educational programs and services. In Michigan, elementary and high schools are currently receiving 0.6% less state funding this year than in 2008. In Michigan, 27,200 Education Jobs Have Been Lost Since 2008. Given Michigan's cuts to education programs, local school districts are forced to cut back on educational programs and services, often laying-off needed teachers and other critical staff, or raising additional revenue to cover the shortfall. As a result, Michigan schools have cut 27,200 education jobs since 2008. These unprecedented layoffs extended the recession and have slowed the recovery in Michigan. With Fewer Teachers and Resources, Michigan School Systems Make Choices That Impact the Learning Environment for Students. "Michigan cut its FY 2010 school aid budget by \$382 million, resulting in a \$165 per-pupil spending reduction. In FY 2011, Michigan restored \$11 in funding per student, so per-pupil funding remains \$154 below 2009 levels." [Center on Budget and Policy Priorities, [2/8/11](#)]

Democrats Helped Michigan Avoid an Even Worse Situation, Preventing Thousands of Potential Layoffs. Without Democratic intervention in 2010, Michigan school districts would have been forced to lay off as many as 9,000 teachers. Recognizing the financial difficulty that many state and local governments were experiencing, Democrats shepherded the bipartisan Education Jobs Act into law, thereby protecting 4,700 education jobs in Michigan. Unfortunately, thousands of teacher jobs are still at stake today. [U.S. Department of Education analysis, [8/6/10](#); National Education Association, [5/10](#)]
