*The new Republican budget reflects upside-down priorities – it would shower the wealthiest few Americans with an average tax cut of at least \$150,000 – paying for it by ending Medicare as we know it, taking away the benefits Americans enjoy as a result of health reform, and putting more of the burden on middle class families. Their plan to block grant and cut \$1.7 trillion in health care services through Medicaid would put an end to vital services that seniors depend on like nursing home care and home health aides. If Republicans get their way, Nevada residents would lose \$8.7 billion in health benefits, including \$1.3 billion for seniors, and 176,000 residents could see their coverage cut entirely.*

**Republican Budget Could Force As Many As 176,000 Nevada Residents Off Medicaid.** Medicaid currently provides health coverage to roughly 263,600 Nevada residents, with the federal government picking up 56.20% of Nevada's Medicaid costs. At a minimum, the Ryan Plan could remove as many as 176,000 Nevada residents from the program. [CBPP, 3/20/12; Kaiser Commission on Medicaid, 2/2011; KFF, accessed on 3/21/12; KFF, 5/11]

**Republican Budget Cuts \$1.3 billion in Health Care for Nevada Seniors By Slashing Medicaid.** The House Republican budget could slash \$1.3 billion in nursing home care and other health care services for seniors and the disabled. In Nevada, over 61,900 seniors and disabled currently rely on Medicaid for their health care needs. While Medicare doesn't cover long-term care, 27.30% of Medicaid spending in Nevada provides this critical care for seniors, and is often the only avenue they have to get the care they need. The cost of long-term care can be financially devastating to seniors and their families, with nursing home costs averaging \$86,505 in Nevada for a private room – and that average is rising every year. These cuts could have a devastating impact on the 50 Nevada certified nursing homes, which serve 4,740 seniors, with more than half relying on Medicaid as their primary payer. As a result, nursing homes would be forced to slash services, turn away seniors, or close their doors. **Republican Budget Would Shift Costs to State Taxpayers, Slashing Health Benefits in Nevada By Up to \$8.7 billion When the State Already Faces a Budget Crisis.** The House Republican budget could slash \$8.7 billion in health benefits from Nevada over the next ten years, including \$2.8 billion in federal investments and \$5.9 billion to expand eligibility in the state. Nevada is already facing a \$1.2 billion budget shortfall in Fiscal Year 2012, and the cuts could force the state to either ration health care benefits for 61,900 Nevada seniors and disabled, restrict eligibility rules and leave thousands uninsured, raise taxes to cover the shortfall, or cut payment rates to healthcare providers, possibly forcing some of the 50 certified nursing homes to close their doors. **Nevada Would Receive Far Less Federal Investment Than Other States Under Republican Block Grant Plan.** Nevada Medicaid expenditure levels are relatively low (\$4,547 per enrollee) compared to the US average (\$5,337 per enrollee). Because the block grant funding levels are based on current state Medicaid spending, Nevada would receive less block grant funding than other states. [KFF, accessed on 3/21/12]
