

PROJECT 2025

EXPOSED

How Project 2025 will harm national security:

The extreme Republican plan would threaten our national security by pulling funding from critical defense programs, limiting congressional oversight, dismantling domestic security agencies and jeopardizing total force readiness.

- Degrades military force readiness and recruitment efforts by imposing extreme and exclusionary social policies on our armed services:
 - Infringes on female service member's reproductive rights by preventing access to reproductive care. (p. 104)
 - Bans transgender service members from serving or joining the military. (p. 104)
 - Eliminates initiatives meant to strengthen diversity, equity and inclusion in our ranks. (pp. 103, 104)
- Risks election security by hamstringing our cyber defenses that help ensure our elections are safe, fair and free from foreign influence. (pp. 120, 15)
- Makes the American public vulnerable to misinformation and disinformation campaign attacks destroying public trust. (pp. 120, 155)
- Emboldens Russian aggression and threatens future support for NATO. (p. 94)
- Undermines our national security by threatening to withdraw significant support from our allies in the Indo-pacific. (p. 94)
- Risks crippling defense research and development programs that will endanger our defense posture and put service members lives at risk. (p. 96)
- Eliminates critical oversight mechanisms and wastes valuable taxpayer dollars with bureaucratic red tape. (p. 101)
- Endangers our economy and our border security by eroding our relationship with Mexico. (p. 183)
- Creates a culture of fear in our intelligence community by threatening retaliation against former and current intelligence officials with whom they disagree. (p. 209, 213-214)
- Weakens America's domestic security by dismantling critical functions and agencies of the Department of Homeland Security setting America back to pre-9/11 stovepipes, opening us up to cyber attacks. (p. 134, 155-167)
- Puts U.S travelers at risk by privatizing the Transportation Security Administration degrading airport safety and eliminating public accountability. (pp. 134, 158-159)
