

# PROJECT 2025

EXPOSED

## How Project 2025 will harm the American legal system:

The extreme Republican plan would weaponize our legal system to undermine the rule of law and empower extreme partisans.

- Puts the currently independent Justice Department under direct presidential control.
- Imposes stricter sentencing guidelines and more frequent use of both federal and state death penalties. *(p. 553-554)*
- Removes legal capacities from the FBI, and ensures its Director is politically aligned with other department heads and the President. *(p. 551)*
- Terminates FBI investigations viewed as unlawful or contrary to the national interest. *(p. 549)*
- Deploys more federal law enforcement into state and local jurisdictions, effectively overriding decisions made by state and local legal systems. *(p. 553)*
- Weaponizes legal action against state and local legal officials (such as District Attorneys), forcing locally-elected officials to yield to the political wishes of the President. *(p. 553)*
- Reassigns responsibility for prosecuting election-related offenses to DOJ's criminal division. *(p. 562)*
- Ends all policies, investigations, and consent decrees counter to the President's ideologies. *(p. 558)*
