

PROJECT 2025

EXPOSED

How Project 2025 will harm American workers:

The extreme Republican plan would slash worker protections, wages and benefits while silencing their voices in the workplace.

- Attacks construction workers by eliminating prevailing wage and Project Labor Agreement requirements. (p. 604)
- Undermines state and local workforce training by eliminating federal investments providing the skills workers need to out-compete the rest of the world. (p. 597)
- Authorizes states to ban labor unions, destroying the right to fight for better pay, better benefits, and safe working conditions. (p. 605)
- Dismantles the right to unionize, by allowing corporations to union-bust in secret and retaliate against union organizers. (p. 601)
- Allows big corporations to get away with not paying overtime to workers for their hard-earned dollars. (p. 592)
- Proposes wiping out child labor rules that protect minors from working “inherently dangerous jobs”. (p. 595)
- Prohibits the collection of workplace discrimination data – stripping victims of a means of providing their case in court (p. 583).
